

Come and join us for 'Moosic Fun'

A music session for children 0-5yrs and their parent/caregiver.

Most young children naturally respond to music and through a multi-sensory approach your child will:

- ❖ Have fun, sing songs, move and use/make percussion instruments
- ❖ Further develop their natural love of music
- ❖ Increase their social and emotional skills
- ❖ Build self-confidence
- ❖ Stimulate the part of the brain that is responsible for reading and math
- ❖ Learn the basics of beat, rhythm and pitch and use simple notation
